Have you been to the PSA Produce Grower Training course? Are you overwhelmed and unsure where to start in order to implement the FSMA rules for produce? We have the answer. We have developed an easy to use and understand Produce Safety Plan, ready with the procedures, protocols, & records you need to implement the new law and put into practice what you learned in the course. You don't have to spend hours & hours to create one from scratch. Save time, effort and money and use our Produce Safety Plan, the Organizational Tool for Small Farmers. Contact us for more information or to purchase a Plan.
